Welcome to France!

France is as diverse as its landscapes: from the endless beaches of Normandy to the perched villages of Provence and the green hills of Auvergne to the turquoise bays of Corsica. Meet the real French for wine tastings and cooking classes, off-the-beaten-tracks visits, exclusive itineraries with our expert licensed guides that drive and more...

Discover the largest country of West Europe, more of half of France is composed of vast plains, beautiful coasts and France hosts Western Europe's highest peak in the Alps, Mont Blanc. The climate is temperate, except near the mountains or in the northeast, with cool winters and mild summers. Southern France is generally warm, with mild winters and hot summers.

French people are known for good fashion sense and good food. They are courteous people, but also frank and usually to the point. French is the official language of France, and it is important for you to learn a bit of French. Indeed, your trip will be more enjoyable if you are able to relate to French people. Also, it will be easier to understand the culture once you learn the language.

As for French manners, the handshake is commonly used in France when people meet another for the first time, in both social and business settings. Close friends greet each other by kissing each other on the cheek (*la bise*). People typically greet one another with *bonjour* (good morning), *bonsoir* (good afternoon) and *au revoir* (goodbye). Party guests are expected to bring a gift, such as flowers or a bottle of wine.

APR 23, 2017 - YOUR FIRST HIGHLIGHT IN PARIS

Musée du Louvre

The Louvre museum exemplifies traditional French architecture since the Renaissance, and it houses a magnificent collection of ancient and Western art.

Walking through the Louvre Museum is like walking through the history of France and into the minds of kings and revolutionaries. The reigns of Louis XIII and Louis XIV saw major expansion and a linking of the palaces and halls, which make up the museum today.

Divided into seven sections, the Louvre collections incorporate works dating from the birth of the great antique civilisations right up to the first half of the 19th century, thereby confirming its encyclopaedic vocation.

The present Louvre departments include Oriental (ancient Mesopotamian) antiquities; Egyptian antiquities; Greek and Roman antiquities; sculpture from the Middle Ages to modern times; furniture and objets d'art; and paintings representing all the European schools. A section of the museum is devoted to Islamic art.

Among the thousands of priceless paintings is Leonardo Da Vinci's "Mona Lisa", probably the most famous painting in the world, housed in the Salle des Etats in a climate-controlled environment behind protective glass.

Works of artists like Fragonard, Rembrandt, Rubens, Titian, Poussin, and David can also be seen. One of the most famous sculptures in the collection is the "Venus de Milo".

The Musée du Louvre is unquestionably one of the finest museums in the world.

APR 23, 2017 - YOUR SECOND HIGHLIGHT IN PARIS

Ile de la Cité

Ile de la Cité, once known as Lutetia, is the oldest settlement in Paris, and boasts more than its fair share of Paris sights: the Pont Neuf, the Pont de l'Archevêché and Notre Dame cathedral, to name only three. Its location bang in the middle of Paris, with Châtelet to the north and Saint-Germain-des-Prés to the south, makes it the central crossroads of the city, which grew outwards from here. When you've finished visiting all the sights, take one last admiring look at the magnificent facade of Notre Dame, then stroll along the banks of the Seine and stop to watch improvised concerts by wandering musicians, for whom this area is a prime performance venue.

Ile de la Cité is also the perfect place for a riverside picnic. At night, the bridges are beautifully lit, and there is a feeling of midsummer magic.

APR 23, 2017 - YOUR SECOND HIGHLIGHT IN PARIS

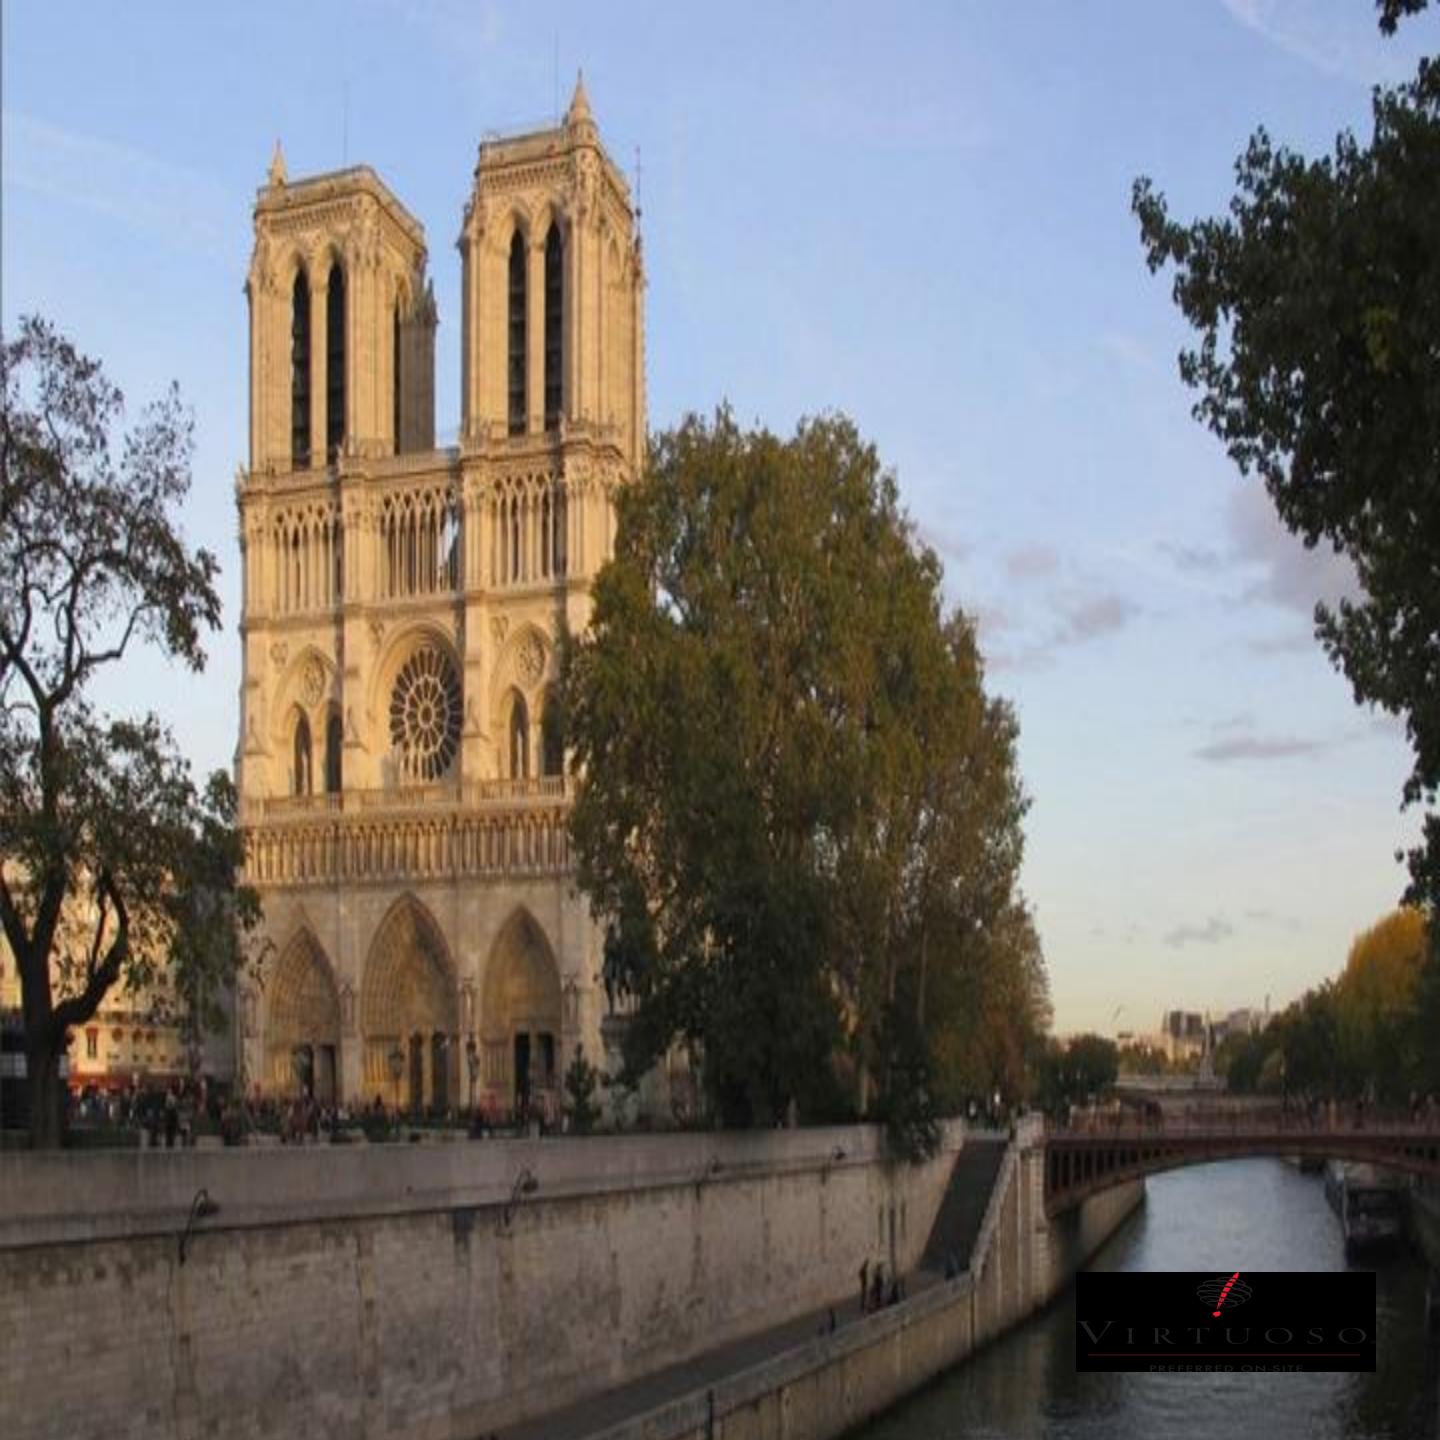

Notre Dame de Paris

Notre Dame de Paris is a Gothic cathedral on the eastern half of the Île de la Cité and widely considered to be one of the finest examples of French Gothic architecture, known simply as Notre Dame in English. It is a Gothic cathedral on the eastern half of the Île de la Cité in Paris with its main entrance to the west. It is still used as a Roman Catholic cathedral and is the seat of the Archbishop of Paris. Notre Dame de Paris is widely considered one of the finest examples of French Gothic architecture. It was restored and saved from destruction by Viollet-le-Duc, one of France's most famous architects. Notre Dame translates as "Our Lady" from French.

At the end of the 18th century, during the French Revolution, many of the treasures of the cathedral were either destroyed or plundered. The statues of biblical kings of Judea (erroneously thought to be kings of France) were beheaded. Many of the heads were found during a 1977 excavation nearby and are on display at the Musée de Cluny. Only the great bells avoided being melted down, and the cathedral was dedicated first to the Cult of Reason, and to the Cult of the Supreme Being. The church interior was used as a warehouse for the storage of forage and food.

APR 23, 2017 - YOUR SECOND HIGHLIGHT IN PARIS

Sainte-Chapelle

Visit the Sainte Chapelle, a masterpiece of Flamboyant Gothic architecture built by Saint Louis in the heart of the Palais de la Cité on the île de la Cité in Paris. Discover its unique stained glass windows rendering the air iridescent with light and colour, symbols of the Heavenly Jerusalem. La Sainte Chapelle is perhaps the high point of the full tide of the rayonnante period of Gothic architecture. From the Palais de Justice, passing through a vaulted passage, one can gain access to the Sainte Chapelle. It was commissioned by Louis IX the Saint for housing the relic of the Crown of Thorns purchased by the sovereign in Venice in 1239, having been previously brought here from Constantinople.

It is probable that this church was designed by the same architect who designed Saint-Germain-des-Prés, Pierre de Montreuil; in this case, though, the design was for two chapels, one on top of the other, which were consecrated in 1248. The lower chapel corresponds to a high level basement, above which open up large, pinnacle windows.

The steeply sloping roof is enriched with a marble balustrade: a soaring, honeycombed spire 75 metres high is the worthy topping to this graceful piece of architecture.

APR 23, 2017 - YOUR SECOND HIGHLIGHT IN PARIS

Conciergerie

The Conciergerie looks every inch the forbidding medieval fortress. However, much of the façade was added in the 1850s, long after Marie-Antoinette, Danton and Robespierre had been imprisoned here. The 13th century Bonbec tower, built during the reign of St Louis, the 14th century twin towers, César and Argent, and the Tour de l'Horloge all survive from the Capetian palace. The visit takes you through the Salle des Gardes, the medieval kitchens with their four huge chimneys, and the Salle des Gens d'Armes, an impressive vaulted Gothic hall built between 1301 and 1315 for Philippe le Bel. After the royals moved to the Louvre, the fortress became a prison under the watch of the Concierge.

The wealthy had private cells with their own furniture, which they paid for; others crowded on beds of straw. A list of Revolutionary prisoners, including a hairdresser, shows that not all victims were nobles. In Marie-Antoinette's cell, the Chapelle des Girondins, are her crucifix, some portraits and a guillotine blade.

Le Marais

The Marais, one of Paris' oldest and most dazzling districts. Le Marais (meaning "the marsh" in French) is a district in Paris, traditionally a bourgeois area, but also well-known historically. It spreads across parts of the 3rd and 4th arrondissements in Paris (on the Rive Droite, or Right Bank, of the Seine). First developed in the 12th century, the Marais was a royal favorite under Henri IV and Louis XIII and then fell to ruin after the Revolution in 1789. Since its revival in the 1960's, it has become one a center of artistic and cultural life.

Musée d'Orsay

There are many masterpieces at the Musée d'Orsay include work by Delacroix, Manet, Guaguin, Cézanne, Monet, Renoir, Sisley, van Gogh and many more great artists. Among the spectacular works on display at the Orsay Museum is Auguste Clésinger's Woman Bitten by a Snake which scandalised all of Paris in 1847 by supposedly depicting a woman not bitten by a snake but in the throes of passion and, said prominent critics of the time, modelled from real life on 19th Century socialite Apollonie Sabatier. Musée d'Orsay is one of the finest museums in Paris, both for the fantastic building itself and the treasures inside and is truly a wonder which no Paris visitor should miss! The Orsay Museum was originally designed as a train station in 1900. By the 1950's it became apparent that the platforms were too short for modern trains and the building became home to a theatre. In the 1970's it was remodelled and converted into a museum dedicated to displaying art from the period 1848 to 1915. The museum is built on 3 levels: on the ground floor, galleries are distributed on either side of the central nave, which is overlooked by the terraces of the median level, these in turn opening up into additional exhibition galleries. The top floor is installed above the lobby, which continues into the highest elevations of the former hotel, over the rue de la Légion d'Honneur.

Jardins du Trocadéro

If there is one garden you really must visit when you go to the Eiffel Tower, it's the Trocadéro gardens. Created for the Universal Exposition in 1937, this green space of nearly 10,000 m² offers a stunning view of the Eiffel Tower dominating the capital (don't forget your camera). The centrepiece of the gardens is the famous Warsaw fountains which, with its 20 water cannons, offers a remarkable water display, especially on summer evenings when the illuminations around the fountains add to the attraction. There are a number of sculptures to be admired, including gilded bronze animal statues, and the two stone statues, 'L'homme' by Pierre Traverse and 'La Femme' by Daniel Bacqué.

APR 25, 2017 - YOUR THIRD HIGHLIGHT IN PARIS

Jardin du Luxembourg

Situated on the border between Saint-Germain-des-Prés and the Latin Quarter, the Luxembourg Gardens, inspired by the Boboli Gardens in Florence, were created upon the initiative of Queen Marie de Medici in 1612. The gardens, which cover 25 hectares of land, are split into French gardens and English gardens. Between the two, lies a geometric forest and a large pond.

There is also an orchard with a variety of old and forgotten apples, an apiary for you to learn about bee-keeping and greenhouses with a collection of breathtaking orchids and a rose garden. The garden has 106 statues spread throughout the park, the monumental Medici fountain, the Orangerie and the Pavillon Davioud. There are many activities and facilities for children such as puppets, rides and slides. Adults, whether they are Parisians or tourists, can play chess, tennis, and bridge or remote control boats. The cultural programme is characterized by free photography exhibitions on the garden railings and by concerts in the bandstand.

APR 25, 2017 - YOUR FOURTH HIGHLIGHT IN PARIS

Basilica of Sacre-Coeur

The Sacré-Cœur, consecrated in 1919, is one of the most iconic monuments in Paris. At the top of the Butte Montmartre, it has one of the most beautiful panoramic views of the capital, from more than 400 metres above ground. In a Roman-Byzantine style, the Sacré Coeur is recognizable by its white colour. Inside the building, the ceiling is decorated with the largest mosaic in France measuring about 480 m². The crypt is also worth a visit. And to go even higher up, visitors can access the dome where the 360° view of Paris is magnificent. A short walk from the Sacré Coeur is the Place du Tertre, the district of Abbesses with its steep, winding roads, and at the bottom of the hill, the famous Moulin Rouge cabaret.

APR 25, 2017 - YOUR FOURTH HIGHLIGHT IN PARIS

Place du Tertre

The Place du Tertre got its name from the fact that it is situated on top of a “tertre”, that is a small hill!

Famous all over the world for its painters, portraitists and terraces, the old town square of Montmartre welcomes thousands of tourists every day and is the perfect place for a stroll.

The place opened in 1635, and by the end of the 18th century till World War One, the whole Montmartre Boheme could be seen here:painters, songwriters and poets.

Today, a host of painters and on-the-spot portraitists welcomes visitors all year round. The “carré aux artistes” (artists' square) is divided into 149 spaces, each 1m² large, which enables two painters to work in relay.
